Some of our Byrd friends say if Mapp wins it will be just the same with the machine. It will take him in or he will take it over. Nothing of the sort. Mr. Mapp is with the machine, and the machine has'nt a bit of use for him. If you believe in machine vote for Mr. Byrd. If you do not, vote for Mr. Mapp. They are traveling two entirely different roads—Louisa Leader.

Haynes---Jones

"I feel that you are not only disloyal to this department, but to yourself," was the way James M. Hayes jr., motor vehicle commissioner, put it when he discharged Mrs. Clinton A. Jones, a woman clerk, when she informed him she would vote for Mapp.

Mr. Haynes made a mistake and Mr. Byrd promptly repudiated his action.

The Democratic party put Mr. Hayes at the head of this department—he owed it to his tenure and he seemed to forget that it was a trust to be executed for the benefit of the people.

This lady has got a place for many who are afraid to express their political freedom.

Fed. Land Bank Monthly Review

The farmers, having passed through a most unfavorable season in 1925, due to climatic conditions, are feeling rather optimistic over the prospects of 1925. The early spring was very favorable for preparing the ground, resulting in a large acreage being plowed; however, the planting season has not been favorable, as it was too cold.

The wheat crop, generally, is about normal; the straw is probably a little short, but it is heading out well. The present outlook for price is very pleasing from the world supply. There was very little 1924 wheat carried over. The early market may be best, as there will be a general tendency to hold the wheat for a big price

The acreage of corn in this district is increased 10-15%; however, there was a lot of poor seed used resulting in replanting or poor stands. The early planted corn suffered from the cold weather. The indications are for a fair corn crop with prices lower than last year.

The tobacco outlook is the biggest complex in our district. Pennsylvania tobacco that sold for $.18 to .20 in 1924, is bringing on the market at .08 to .14. The price in Virginia has held up better. The higher prices paid to non-co-op members has increased the acreage of tobacco. The 1924 crop was only about 70 per cent of the 1923 crop, due to seasonal conditions. The non-co-op members are tending to increase their acreage; however, the scarcity of plants and the poor stand will be a factor in limiting the yield. The price received for tobacco during the past four years has gradually increased the acreage, causing larger supply to be accumulated. If a big crop is harvested in 1925, it will materially effect the price this fall.

In general, conditions are very good; however, industrial and construction work makes labor scarce and high priced, also taxes on farm land is generally too high.—The farmers will be in a better position to meet their obligations in 1925 than for the past few years.

Mrs. George S. Hunter, of Columbus, Ga., writes:

"I suffered with dreadful pains in my sides during . . . My side hurt so bad it nearly killed me. I had to go to bed and stay sometimes two weeks at a time. I could not work and I just dragged around the house.

"I got very thin—I went from 126 pounds down to less than 100. My mother had long been a user of Cardui and she knew what a good medicine it was for this trouble, so she told me to get some and take it. I sent to the store after it and before I had taken the first bottle I began to improve.

"My sides hurt less and I began to improve in health. . . . I let Cardui acted as a fine tonic and I do not feel like the same person. I am so much better. . . . Last winter . . . I have gained 10 pounds and am still gaining. My sides do not trouble me at all.

"I wish every suffering woman knew about Cardui."

This is especially true of--

"We cannot, of course all be handsome,
And it's hard for us all to be good
We are sure now and then to be lonely,
And we don't always do as we should
To be patient is not always easy,
To be cheerfull, more difficult still;
AT LEAST we can always be pleasant
If we make up our minds that we will.
It pays every time to be kingly,
Although you feel worried and blue
If you smile at the world and look cheerful
The whole world will smile at you
So try to brace up and look pleasant
Though trouble may burden you down
Good humor is always contagious
But you banish your friends when you frown.

Motor License Fees Show Gain.

Richmond.—

A statement of the revenue from automobile license fees collected for the first five months of 1924 and the corresponding five months of 1925 made to the Governor discloses that $1,646,358.61 was collected in 1925 from January 1 to May 31, as against $1,871,312.63, making a net increase of $277,046.98 over 1924.

The total revenue collected in 1924 from automobile license fees was $3,715,097.71. The revenue collected the first five months of 1925 is practically the same amount as that collected in the whole of 1924, that is to be exact, only $46,639.10 more was collected during the entire year of 1924 than has been collected in 1925 for the first five months.

The gross amount collected from the gasoline tax from June 28, 1923, when the act became effective, up to June 1, 1925, is $5,876,823.15. This amount does not include the May tax, as this is not due and payable until June 20.

A comparison of the collections of this tax for the first months of 1924 shows an increase of $136,-236.40. The tax collected for the first four months of 1924 amounted to $859,559.39. The tax collected for the first four months of 1925 amounted to $996,435.79.

The gas tax for the months of January, February, March and April is less than any months of the year, and, with an increase of $136,236.40 for these four months over last year, the office expects a much greater increase for the remaining eight months of 1925.

Poultry And Cream Service Advances.

Certification and certification and accrediting of poultry flocks and hatcheries is making rapid progress in the Valley of Virginia, according to a statement gotten recently from Nelson A. Loucks, specialist with the State Division of Markets, who has just returned from a trip to that section of the State in the interest of the movement. Growing interest in cream grading is also declared to be evident among the creameries visited.

Personal visits were paid Mr. Loucks to hatcheries and poultry raisers who produce settings of eggs for sale to their customers as well as the hatcheries. Keen interest in the movement was found to exist and several of the larger hatcheries and poultrymen made formal application for the service.

It is the purpose of the service to give to the hatcheries and producers certificates of excellence under State inspection, both for products and for freedom from disease. The Agricultural College at Blacksburg is cooperating in support of the movement and making tests for disease at their laboratory.

The State Division of Dairy and Food, as well as the Agricultural College, is cooperating with the division of markets in advocating a method of grading cream in the State under uniform standards. Mr. Loucks declares that the creameries are showing interest in the manufacture of a uniform Virginia product which this would make possible, thereby improving their business and returning more money to the dairyman.

Intellectual Freedom Need Of Today.

Degrees, medals and prizes were formally awarded members of the graduating classes of the three schools of the University of Richmond at the commencement exercises when Wyndham R. Meredith, class of 1898, delivered the chief address. He declared that a most careless survey of the times shows a revival of that tyranny of thought which prevailed in the Dark Ages, and that "if intellectual and thought in the intellectual and spiritual world is not kept free and unbiased, hope of progress of the race is vain."

Dr. R. E. Gaines, for 35 years a professor in Richmond College, made a short address in which he alluded to the growth of the institution from its humble beginning as a secondary school in 1832. Dr. Gaines declared in conclusion that the true worth of a college is the amount and character of the service it renders and expressed the opinion that the university has seen marked growth in this respect.
